Medical Hematology & Oncology Education Exhibit/Presentation

Network Liaison is pleased to inform you of the upcoming Medical Hematology Oncology Immuno-Engagement Education Exhibit Presentation at Fogo De Chao, Brea Ca.

We are hosting an exclusive event to discuss the latest advancements in targeted and immunotherapy for hematologic and solid tumors. The agenda will feature in-depth conversations on optimizing treatment pathways and addressing the unique challenges of specific cancers, including rare blood disorders and certain solid tumor types. Understanding the clinical applications and emerging data is crucial for optimizing patient outcomes.

Join us to explore how modern therapies are redefining treatment strategies and expanding options for patients. This program will equip Hematology Oncology Healthcare Professionals (HCPs) with the knowledge to integrate modern therapies into practice, providing new hope where conventional approaches fall short.

This is a unique opportunity to connect with difficult to access Hematology Oncology Community Healthcare Professionals. Practicing medical oncologists, pharmacists, nurses, researchers, advanced practice practitioners (APPs), and other stakeholders in the field are planned to be in attendance. This program will be an intimate roundtable didactic case study-based agenda where local experts will be sharing scientific data and safety expertise with modernized treatment options.

Network Liaison would like to extend the opportunity for your company to exhibit, present and attend at this Forum.

The objectives of this meeting are to: Enhance the understanding of current and emerging treatment paradigms; Facilitate knowledge exchanges of best practices in patient management; Promote collaborative approaches to addressing unmet clinical needs; Foster awareness of the role of pharmaceutical innovation in advancing cancer care; Strengthen professional networks and facilitate interdisciplinary communications.

Physicians, mid-level practitioners, pharmacy, nurses, fellows, basic and translational physician scientists are encouraged to attend and participate.

Target Audience

This course is designed for healthcare professionals that treat patients with hematologic malignancies: primary care physicians, nurse practitioners, physician assistants, nurses, registered pharmacists, and scientists/researcher.

Program Details: Oncology Immuno-Engagement Education Exhibit Presentation

Date: November 17, 2026
Location: Fogo De Chao
Address: 311 S State College Blvd
City: Brea, CA 92821
Time: 6:45 pm arrival and 7:05pm start time for Exhibit/Presenter.

Exhibit Details:

- 3x4 table with tablecloth will be included
- Exhibit table setup & breakdown included

Presentation Details:

- Corporate Sponsor will have 20 minutes (to include Q&A time) to formally present efficacy & safety data as appropriate.
- One (1) speaker to present important data is ideal, we do NOT recommend sharing presentation time as this may be disruptive
- Plan arrival no earlier than 6:45 PM (HCP group will be attending the previously mentioned Private Reception)
- Screen/Microphone
- Industry presenter name and topic for discussion will be added to agenda prior to engagement.

Attendance Details:

- Space is limited; registration operates on a strict first-come, first-served basis. We are unable to make exceptions once capacity is reached.
- A High-quality interaction with an elite group of Hematology Oncology HCP's.
- All attendees are encouraged to proactively participate in roundtable discussions as appropriate.
- Dinner is included and a list of attendees will be emailed to all registered industry participants.
- 6-8 Hematology & Oncology HCPs plan to be attendance for this intimate roundtable didactic case study-educational forum.
- Planned HCP attendee list available prior to event upon representative request.
